

1/29/26

Members present: Paul, Wally, Kevin, Greg, Jeremy, Samantha

Floor plan discussion with Kiffmeyer Plumbing clarification about:

Sinks in restrooms, mop sink in mechanical room, grease trap in kitchen, 3 floor drains in the kitchen, water into mechanical room, plumbing underground w/ water heater in kitchen, Electric water heater vs other source, coffee pot water fill station, water fountain/bottle. (Discussion about the well water and water fountain. The mineral builds up and smell that can occur with this causing extra maintenance. It is probably better to purchase a small beverage fridge and fill with water bottles) Add a water softner. Add a washer and dryer hook up for future use, Outside hose access – 4 spickets.

Heaing and air will need to meet with them to know their thought process. Contacting Centra Sota Sheet metal, H & S,

2/12/26

Members present: Dan, Wally, Kevin, Greg, Paul, Samantha

Jeff Popp present to present Centra Sota's bid.

3 phase vs single phase was discussed. That will determine the number of units and type of units needed.

Discussion of pros and cons about duct work under ground or in the ceiling.

2/19/26

Members Present: Jeremy, Mark, Kevin, Danny, Wally, Paul, Greg, Samantha

Wayne Starry will meet with a few members to go over the plan and work to come up with what is needed to get similar bids. Danny will work with Wayne to go over the plan.

Discussions about excavator working with Ray Novak. Paul will call to confirm we can fit into his schedule.

Discussion about getting a framing bid. Jeremy will work on this.

Discussion on possible concrete finishes. Mark will contact Kasella Concrete.

Paul will contact someone about the process of cutting into the side wall of the church to connect the parish center.
